Crux

Lecture -7

Programming Fundamentals -3

Recursion

Manisha Khattar

Recursion Assignment 1?

Recursion Assignment 2?

Order Complexity Analysis

Amount of time/space taken by the algorithm
to run as a function of the input size

Experimental Analysis

- Bubble Sort vs Merge Sort

Theoretical Analysis

- Bubble Sort
- Binary Search
- Factorial
- Polynomial Evaluation

Your turn

- Insertion sort
- Fibonacci
- Assignment 3 and assignment 4 solutions

Complexity Analysis Examples

```
for (i=0; i<=n-1; i++){  
    for (j=i+1; j<=k; j++){  
        constant number of operations.  
    }  
}
```

Complexity Analysis Examples

```
for (i=0; i<=n-1; i++){  
    for (j=i+1; j<=n; j++){  
        constant number of operations.  
    }  
}
```

Complexity Analysis Examples

```
for (i=0; i<=n-1; ){  
    for (j = 0; j<=5; j++){  
        constant number of operations.  
    }  
    i = i + j;  
}
```

What is space complexity?

What in case of recursion?

Time for more Brain Teasers!

BT – 8: Daughters' Ages

Local Berkeley professors Dr. X and Dr. Y bump into each after a long time.

X hey! how have you been?

Y great! i got married and i have three daughters now

X really? how old are they?

Y well, the product of their ages is 72, and the sum of their ages is the same as the number on that building over there

X right, ok ... oh wait ... hmm, i still don't know

Y oh sorry, the oldest one just started to play the piano

X wonderful! my oldest is the same age!

How old are the daughters?

Thank You!
